

“We want to make the work of resellers easier, by supplying all parts and accessories related to carts; parts, accessories, carts, technology and knowledge.”

Ties Vonk, Owner

We are Carrus.

Wholesale with parts for (golf) carts.

Carrus has been active for 20 years in the purchase and sale of carts, building carts and with an extensive parts webshop.

We do this both in the Netherlands and in the rest of Europe. We have built up a lot of knowledge from various brands and are the only one's importer of the brand in Europe Madjax. A high-quality cart which we currently only use as new to sell.

Would you like to experience the Carrus concept first hand? You are welcome to visit our showroom in Nieuwegein (Utrecht, NL). [Here](#) you will find a first impression.

Ties Vonk
Owner Carrus

We are the only company in Europe who has everything in house to build carts up to any model. We call it “The Carrus Concept”. In this leaflet we explain this further.

Every week we send out a mailing with the stock of used carts. Would you also like to receive this? Please send us an email to info@carrus.com.

The advantages of Carrus:

- ◆ Extensive webshop with parts and accessories: www.carrus.com
- ◆ An online Partsfinder will help you find the right components
- ◆ Brands such as ClubCar, EZGO, Yamaha, Madjax and Marshall
- ◆ New, refurbished and trade carts
- ◆ Importer of Madjax
- ◆ All models present in our showroom
- ◆ Available from stock
- ◆ Manuals available
- ◆ Warranty on new and refurbished carts
- ◆ Construction of carts

The Carrus concept

The Carrus concept: We have all the resources to build a cart into any desired model. The basis is a two-seater, new or used, which our technicians build with parts and accessories from our wholesaler. This is possible with at least 12 different models.

Wholesale with webshop - www.carrus.com
 Would you rather build a cart yourself? Do you need parts or accessories? No problem. We will send all supplies to you. We have a large stock of all brands (ClubCar, EZGO, Yamaha, Madjax), both original (OEM) and alternative (Nivel).

Technical solutions
 Every day our technicians work on the renovation of carts and are always ready to help you with technical questions.

In addition, we have operating and maintenance installation manuals available for you and your customers.

New, refurbished and trade carts
 We have all models on page 3 in stock. Both new and refurbished. We also have purchased carts that we sell 'as is' (trade). Every week we send out a mailing with the stock of used carts. Would you like to receive this as well? Please send us an email to info@carrus.com or send a WhatsApp on +31 (0)30 233 44 05.

Communication to your customers
 You can place all carts on our website on your website via a link. Without our logo so it looks like it's your stock. It is also possible to have us create this brochure with your own information so that you can inform your customers about the possibilities.

Would you like to know more?
 Contact your Carrus account manager, see the details on the back.

model #15

Four-wheel drive two-seater with open cargo box

Tough cart for rough terrain such as loose sand, beach or forest. It gets through everything. This cart is currently only available in new condition and comes with a license plate for public roads.

model #22

Two-seater 'Madjax'

Carrus is the only importer of this model in Europe. As far as we are concerned, the 'cream of the crop' in terms of appearance and quality.
